

MINING, BUSINESS AND STOCKS.

THE WEEK ON THE EXCHANGE.

A Number of Stocks Have Improved Their Positions.

DAILY-WEST IS STRONGER.

Sunbeam Continues Its Downward Course—Golden Eagle Advances—Dexter Much Weaker.

TODAY'S METALS:
SILVER 59%
LEAD, \$4.57 1/2
CASTING COPPER 15 1/2

The week on the Exchange has resulted in the transaction of a fair amount of business considering the general conditions. A total of 145,399 shares were sold during the week for \$4,247.36. Daily-West shows itself much stronger today, having advanced during the week from \$12.14 to \$12.30. Mammoth has moved from \$2 to \$2.10, but closes a little weaker. Lower Mammoth records a slight advance, while Sacramento shows decided shrinkage, as does Sunbeam, which has been hammered down from around \$1 to 20. Golden Eagle shows more strength, having advanced to 4 1/2 with the assessment paid. Yankee has fluctuated owing to the reported strike. It is reported to have sold from around \$15 as high as 17, but closes the week much weaker.

Grand Central has remained quiet, but shows the effect of the passing of the dividend today. The delay in the expected shipment from the Dexter and its anticipated decrease for last month have no doubt caused the softening seen in Dexter. May Day showed continual advances early in the week to 9 1/2, but it has receded a few points today. The stock of Bowers Extension caused by the anticipation of another assessment no material change is recorded of the other stocks.

The star stock in the pit today was Yankee Con., which was sold at 15.50 reduced prices. Altogether about 15,500 shares changed hands during the call, at the close of which it was found that the stock had depreciated from 14 1/2 to 13 1/2.

Daily-West sold up to \$12.30, while Mammoth responded at \$2.07.

Lower Mammoth shows a slight advance owing to rumors of early shipments.

Golden Eagle stiffened up to 4 1/2 today, while Bowers Extension fell off to 3 1/2.

Sunbeam received another set-back today, being traded in at 30 1/2. Galena brought 10 Northern Light 5 1/2, and Bunker Hill 2 1/2.

STRONG, ACTIVE CLOSING.

Market Shows Improvement in Conditions Today.

Bank Statement Favorable—Live Stock Market Steady—Produce is Lower.

New York, Feb. 10.—The market opened dull within a narrow range except for sugar and St. Paul, which were off about a point. The low level in sugar induced covering which carried it up almost 2 points. There was improvement in the general list in sympathy. St. Paul recovered most of its decline, but other railroads moved narrowly. Selling of the metal group checked the rise, and there was a sharp dip in American tobacco. The market declined in the second hour, sugar, the local traction stocks, Missouri Pacific, Burlington, Wisconsin Central preferred, and Western Union losing from 1 to 1 1/2. Third avenue reacted 2 1/2. The appearance of the bank statement prompted covering by bears, who had sold in anticipation and rallied the market. Losses in some stocks were recovered. The closing was quite active and strong at the rally and net changes were mixed.

SUGAR.
Sugar—Raw sugar; refined firm.

MONEY AND BONDS.
Close: Money on call steady at 2 per cent. Prime mercantile paper 4 1/2 per cent.

Sterling exchange steady with actual business in bankers' bills at 4 1/2% for demand and at 4 1/4% for 60 days; posted rates 4.35 and 4.38%; commercial bills 4.35% @ 60.

Bar silver 59%. Mexican dollars 47%. State bonds, inactive; railroad bonds irregular. Government bonds weak: 2s reg. 1.02 1/2; 3s reg. 1.03; 4s coupon, 1.04; 4s reg. 1.14; old 4s coupon, 1.14; 5s reg. 1.12 1/2; 5s coupon, 1.12 1/2.

WEEK IN WALL STREET.

New York, Feb. 10.—The activity and strength of the earlier part of the week in the stock market, culminated on Wednesday. The realization of profits by the stronger financial interests had transferred stocks to weaker hands and left speculative accounts vulnerable to bear attack. Sudden declines in prices wiped out margins and deluged stop orders. The resulting reaction discouraged the outside demand for stocks and business drifted back into the hands of professional operators. The pressure of realizing sales and the listlessness of the outside demand invited occasional attacks by the bears, which wiped out practically all the week's advances. The good general business outlook, large railroad earnings, and dividend declarations and prospects attracted some buying of a substantial character, which gave a firm undertone to the market.

NEW ORE BODY

IS BROKEN INTO.

Vein of Copper Ore Tapped on Shoebridge-Bonanza.

THE YANKEE CON. STRIKE.

Contract Let by the Lion Con.—The Superior Mine—News from Sunshine.

Some samples of ore from the Shoebridge Bonanza were received by Manager Heffron yesterday afternoon from which some interesting returns were expected this afternoon. The ore is said to indicate a high percentage in copper. The chief interest in these latest developments in the old Tintic producer lies in the fact that a twenty-inch vein has just been encountered in the north drift from the 450-foot level about 50 feet from the shaft. The other strikes reported were in the south drift, where the ore chute appears to be the same as that exposed in the Mackintosh shaft. The samples which are being assayed today come from a point right under the old stop, from which it is stated that over \$700,000 worth of ore was extracted about twenty years ago.

YANKEE CON STRIKE

Said to Be On May Day Ground—Covers the Face of the Drift.

No assays have yet been received by Manager R. G. Wilson which would throw any light on the value of the recent strike in the Yankee Consolidated. It was in the opinion of the manager that the strike would be given out from the samples received yesterday until it is fully determined whether the ore was encountered within the Yankee side lines. A surveyor will be sent out at once to settle the location of the strike. It is thought by some that the tunnel has crossed into May Day ground, though why this should be suddenly conjectured is difficult for others to see. The Tintic Miner refers to the strike as follows:

Contractor Green, of the Yankee Consolidated, who for several days has been following a small broken vein of mineral, believes that he has broken into an ore body that will determine the future of big producers that have made Godiva hill famous. The metals which predominate are iron and copper, and a small percentage of both silver and gold. Picked samples assay as high as 15.3-10 per cent copper and 32-10 per cent iron, while a "grab" sample submitted to Assayer Hillstead registered 9.3-10 per cent copper. The extent of the strike has not yet been determined. It covers the entire face of the drift, however, and while it is possible that it may prove to be but a kidney, it is more than probable that it is an extension of the ore chute of the May Day, and will prove a veritable bonanza.

Values in copper are a new thing in Godiva mountain; some small deposits of a very high grade have occurred in the Humboldt, but they are rare, though the indications are stronger in the La Reine, on the south end of this named mine.

Buying orders were sent in from here by a number of local speculators, and the price of Yankee stock went up several cents during the day.

ARTICLES CHANGED.

Shareholders of Superior Mining Company Met Yesterday.

At a meeting of the stockholders of the Superior Mining company held yesterday afternoon the articles of incorporation were changed so as to increase the capital stock from 100,000 shares to 500,000 shares, the whole of the increase being turned into the treasury to provide means with which to continue development.

The company has nine patented claims in the Blue Ledge district near Park City secured under lease and Fred Matthews, formerly of Eureka, the bond which is said to call for \$100,000 within the next nine months.

THE LION CON.

Contract Let for One Hundred Feet of Shaft Work.

The directors of the Lion Consolidated, at their meeting last evening and let a contract for 100 feet of shaft work. It is stated that the shaft will be pushed down about 300 feet as soon as possible and ore will be taken out after the superintendent of Fred Matthews, formerly of Eureka. Work is also to be started on the necessary buildings at once.

MINES CLOSE DOWN.

The Eight-Hour Law Causes Trouble in British Columbia.

A dispatch from Rosland, B. C., says that the mining community is in a condition of genuine consternation, owing to the discharge today of 100 men by the Le Roi Mining company, and the announcement from Nelson that the Hall mine and smelter had also shut down today, on account of enforcement of the eight-hour law for underground mining.

Ore Shipments.

Eureka, Feb. 9.—The ore shipments from the Tintic district for the week ending today are as follows:

**Contract Let for One Hundred Feet
of Shaft Work.**

The directors of the Lion Consolidated, of Stockton, held a meeting last evening and let a contract for 100 feet of shaft work. It is stated that the shaft will be pushed down about 200 feet as soon as possible and ore will be taken out under the superintendency of Fred Matthews, formerly of Eureka. Work is also to be started on the necessary buildings at once.

In addition to the above the Mammoth mill sent out four carloads of concentrates and two bars of bullion.

Tintic Mining News.

Special Correspondence.

Eureka, Feb. 9.—The new tramway reaching from the Centennial-Eureka mine to that company's ore house, near the tracks of the Oregon Short Line and Rio Grande railway companies, is nearly completed. Manager Allen was out to the mine today and the new tramway was tested by running nine

The new ore houses located at each end of the tram are commodious ones and a consignment of thirty-five cars was sent out from the mine this week.

ST. GEORGE ITEMS.

Working at Copper Mountain—Men for the Savanite Mine.

Special Correspondence.

St. George, Feb. 6.—Sunday two teams and a number of men went out to the Copper Mountain mine to do work for C. D. White, of Beaver. The mine is in the near future.

A number of men have also gone out to the Savanite mine to do work for Andrew Pickett, Andrew Sorenson, Bud Lawry and others. The mine gives excellent indications and has great owners well for their recent shipment.

The Grand Gulch mines is still sinking on the new shaft and will soon be ready to ship large quantities of ore.

There is a great deal of talk about the Dixie Group being sold within a short time and then things will boom here.

MINING NOTES.

The Horn Silver had four cars of ore on the market today.

Three cars of ore from the Mammoth of Tintic were on the market today.

The Mendha property at Pioche, Nevada, marketed a car of ore today.

The Daily-West of Park City reached the market today with sixteen cars of ore.

The Conklin sampler reported eight cars of ore from Park City and three from Tintic today.

A meeting of the directors of the Martha Washington is scheduled for Monday next.

Col. Theodore Bruback expects to go to Butte tomorrow to examine mining property.

H. S. Joseph promises a shipment of ore from the Lower Mammoth within the next few days.

The directors of the Grand Central Mining company met in Provo yesterday and again passed the dividend.

Five cars of ore were marketed today from the Ucle Sam of Tintic and one was received from the Sampson property in Bingham.

A meeting of the Joe Bowers will likely convene early next week at which time it is thought active development will be decided upon.

The Mercury mine reported at the rooms of the consolidated Kansas City Smelting and Refining company with 600 pounds of cyanide dust.

Tony Jacobsen went to Stockton today, where he will discharge the West Argent payroll for last month, which amounts to \$1,600.

Another assessment of 1/4 of a cent has been levied by the Little Pittsburgh, which becomes delinquent March 12th.

The Taylor-Brunton sampler reported five cars of ore from Tintic, four from Frisco, one from Bingham, eight from Park City and one from Nevada today.

Reports from the Ely mine at Cherry Creek, Nevada, show continued improvement in the property. The weekly assays will not be given out in the future.

The De La Mar Lode says that news of an important strike in the Mono

April Pool No. 2 was going the rounds last week, but the report was not confirmed.

At a meeting of the directors of the Joe Bowers Extension held yesterday afternoon an assessment of 1 cent a share was levied, the same to become delinquent on March 15th.

The work on the additions to the Germania smelter is progressing favorably though, owing to the rush in the iron trade, it will be some months before the plant will be completed.

President Farnsworth of the Bullion-Beck and Champion Mining company reports that married men are being discharged at the Beck, and Frisco miners are being put to work in their places.

The St. Joe Mining company filed the amendment to its articles of incorporation with the county clerk yesterday. The amendment increases the capital stock from 300,000 to 1,000,000 shares of the par value of \$1 each.

Tintic Miner: A Salt Lake firm of brokers is asking for a sixty-day option on Yankee Consolidated stock, and there are reports that a deal is on with no less a personage than Jesse Knight back of it. The rumor, however, lacks substantiation.

De Lamar Messenger: The Johnny company is having wood delivered at the mill preparatory to starting up, and the further development of water by the company is also being attended to. The owners seem to have no information to impart in relation to their movements and intentions, which worries a goodly number of us.

Boise Statesman: There have been filed with the secretary of state the articles of incorporation of the Aetna Mining and Investment company, limited. Its capital stock is \$50,000, the principal place of business is Bay Horse, Custer county, and the directors are O. J. Salisbury, William J. Trealer, Charles Baker, Charles B. Felt and Earl J. Michael.
